

White Moss Quarry, Alsager

An outline planning application is being prepared for submission to Cheshire East Council for the residential redevelopment of the land at White Moss Quarry, a previously developed site.

The proposal will also include large areas for public open space, with a perimeter walk, car parking, provisions of lakes and the re-instatement of peat bog areas.

There are also plans for a local centre to include a public house/restaurant, convenience store, shops, children's nursery and extra care facilities for the over 55's.

Prior to the submission of the application we are holding a second Public Consultation event in order to engage with local residents to discuss the proposed development and the amendments made in response to comments and suggestions received from the public at and since our last consultation.

The Public Consultation event will be held on;
Wednesday 4th September 2013. 12noon to 7.30pm.

Alsager Civic Centre

Lawton Road, Alsager, Stoke-on-Trent. ST7 2AE

The proposed plans will be displayed for you to view and members of the professional project team will be at the event in order to answer any questions you may have. We look forward to seeing you there and hearing your thoughts on this project.

Any comments you may have will be taken on board as part of the preparation of the planning application so please get involved.
